

y-SIS Newsletter

Be ready for the summer!

As the hot weather is coming, we are pleased to share our hot news! The surge of y-SIS initiatives is unstoppable: our informal gathering (StaTalk), a thrilling data challenge (Stats Under the Stars), and multiple sessions and awards recognizing top contributions at the SIS meeting...

Below you can find all the details, but for more detailed news do not forget to follow us on [Twitter](#), [Instagram](#) and [Facebook](#)!

StaTalk 2025

MILAN, JUNE 13-14

The new edition of StaTalk is around the corner, with almost 90 participants! It will feature 5 invited sessions, 1 keynote session, 1 mentoring session, and a poster session with more than 15 posters, one of which will be awarded a prize, good luck to everyone! We are thrilled to announce that, for the first time ever, StaTalk will feature a social event, we look forward to seeing you there! More information and details on the program can be found on the dedicated [website](#).

Stats Under the Stars

GENOVA, JUNE 15-16

Stats Under the Stars (SUS⁸) is a **whole night event for young statisticians**, where different teams of young students and researchers will compete for the **analysis of a dataset** during the night in a friendly environment. The exciting challenge of this year (no spoiler for the moment!) will be provided by **Rulex**. Three prizes will be assigned by a

dedicated committee, so the game is on!

SUS⁸ will take place in **Genova** as a satellite event of the SIS meeting. There is very little time, until **June, 1**, to register at the [dedicated page](#). Hurry up!

SIS 2025

GENOVA, JUNE 16-18

The **52nd Intermediate Meeting of the Italian Statistical Society**, organized by the University of Genova, will be held at "Albergo dei Poveri" on June 16-18. y-SIS will be there in several way! We will start with our SUS award ceremony (16/06, Monday, 14:00 – 15:00), but you can also met us later on, during our 3 sessions: *Uncertainty quantification with conformal inference: methodological advances and applications* (16/06, Monday, 11:30-13:00), *Innovative applications of latent Markov and semi-Markov models* (16/06, Monday, 11:30-13:00), and *Modelling spatio-temporal data with innovative and highly scalable methods* (18/06, Wednesday, 12:00-

13:30). More information can be found on the dedicated [website](#). During the conference, we will award **two prizes** for the best contributions presented by a y-SIS member: the **Best PhD Student Contribution Award** and the **Best Young Contribution Award**, you can come and celebrate the winners with us during the General assembly, (17/06, Tuesday, 17:30–19:00).

y-SIS all around

Don't miss the opportunity to join other y-SIS sessions at upcoming conferences, all around Italy! These sessions gather early-career researchers to explore trending topics, foster collaborations, and exchange insights in a dynamic and interactive setting. Upcoming sessions will take place at: [IES 2025](#) (June 25-27, Bressanone), [ITACOSM 2025](#) (July 1-4, Bologna), [SISbayes 2025](#) (September 4-5, Padova), [CLADAG 2025](#) (September 8-10, Napoli), [GRASPA 2025](#) (September 15-17, Rome), and [IBS-IR-EMR 2025](#) (September 16-18, Salerno). We look forward to seeing you there!
